(404) 561-8686 | jtraille07@gmail.com | ablackcloudapp.com | linkedin.com/in/justin-traille-b9a1708a | github.com/TheTraille18
| Atlanta, GA

PROFESSIONAL SUMMARY

Cloud Software Engineer with 5+ years of experience delivering enterprise solutions across AWS, Python, Go, Terraform, and Kubernetes. AWS Certified Solutions Architect - Professional with hands-on experience building AI agents, RAG applications, and cloud-native platforms.

TECHNICAL SKILLS

Programming Languages: Python, Go, Java, JavaScript, TypeScript, SQL

Cloud: AWS, Azure

Infrastructure: Terraform, HCP Terraform, Kubernetes, Amazon EKS, Helm, Harness, Docker, Linux, Jenkins, GitHub Actions, ECS Fargate

AWS Services: Lambda, Step Functions, EventBridge, API Gateway, SQS, S3, DynamoDB, CloudWatch, Amazon Bedrock

AI / ML: Amazon Bedrock, LangChain, LangGraph, AI Agents, RAG, ChromaDB, Titan Embeddings, MCP, AI Evals

Databases: Aurora PostgreSQL, PostgreSQL, DynamoDB

PROFESSIONAL EXPERIENCE

Cloud Software Engineer, Atos (Cloudreach)

11/2021 – 06/2026 | Remote

Cloud Software Engineer delivering cloud-based solutions and software engineering services for enterprise clients.

Atos Client: Mayo Clinic | 03/2026 – 05/2026

- Developed React and TypeScript with assistance from Cursor for enhancements and implemented Azure App Registration authentication for a healthcare safety platform.
- Resolved Azure DevOps CI/CD pipeline failures and remediated security vulnerabilities.

Atos Client: Capital One | 11/2024 – 06/2025

- Led the first successful migration of Aurora PostgreSQL Global Clusters from a legacy IaC platform, including required multi-stage major-version upgrades.
- Validated Terraform configurations and coordinated production migrations through formal change management.
- Audited Go dependencies, remediated technical debt, and developed Go unit tests.

Atos Client: The Options Clearing Corporation | 06/2023 – 06/2024

- Developed Java customer test frameworks and Python integration and unit tests.
- Managed monthly Amazon EKS deployments using Harness and Helm; investigated production issues with Rancher, kubectrl, Docker, and application logs.

Atos Client: Blackstone | 01/2022 – 04/2023

- Migrated Terraform Enterprise resources to HCP Terraform and imported AWS infrastructure, users, teams, and platform resources into Terraform-managed IaC.
- Built Jenkins CI/CD infrastructure as code using Terraform.
- Developed Python Lambda functions and API Gateway integrations with the HCP Terraform API to automate workspace lifecycle operations through a React self-service platform.
- Optimized legacy automation workflows from 15 minutes to 1 minute.

Internal Innovation Initiative – AI-Driven Incident Response Platform

- Collaborated on a three-person team to build an AI incident-response platform using Amazon Bedrock, Lambda, Step Functions, EventBridge, DynamoDB, CloudWatch, ServiceNow, and Slack.
- Designed agent workflows that automated evidence collection and generated incident summaries, remediation recommendations, rollback plans, and validation procedures.
- Reduced investigation effort from over 60 minutes to approximately 15 minutes through automated evidence collection and AI-assisted analysis.

PREVIOUS EXPERIENCE

Staff System Engineer, Kapsch TrafficCom

11/2015 – 11/2021

Designed and maintained Java ETL applications that consolidated, validated, and transformed roadway-device data from spreadsheets, text files, CMDB tables, and reference datasets into deployment-ready configurations for thousands of devices across national traffic-management programs.

Control System Engineer, Logical Systems Inc.

03/2012 – 07/2015

Developed industrial automation and control systems.

AI ENGINEERING PROJECTS

CareerPilot AI

careerpilota1.ablackcloudapp.com

Designed and developed CareerPilot AI, an AI-powered career optimization platform that tailors resumes and cover letters to specific job descriptions while preserving original DOCX formatting, deployed on Amazon ECS Fargate with CI/CD via GitHub Actions.

- Built RAG workflows and FastAPI endpoints using Python, Amazon Bedrock, LangChain, ChromaDB, and Titan Embeddings for resume ingestion, retrieval, tailoring, and cover-letter generation.
- Built the React and TypeScript frontend and implemented structured resume parsing, JSON knowledge schemas, and document-aware DOCX editing.
- Developed AI evaluations for factual consistency, ATS keyword coverage, response relevance, and tailoring quality.

KubeSentry AI

github.com/TheTraile18/kubeSentryAI

- Developing a Kubernetes troubleshooting platform in Go using Amazon EKS, Bedrock, and graph-based AI agent orchestration with shared state, planner logic, and modular workflow nodes.
- Developed a Kubernetes MCP server and automated detection for failures including CrashLoopBackOff, ImagePullBackOff, and PodFailed, collecting diagnostic evidence before LLM analysis.

MCP Platform

AWS, Terraform, Go, TypeScript

github.com/TheTraile18/mcp-infa

Built a multi-service MCP platform on AWS using a shared ECS Fargate cluster and Application Load Balancer with path-based routing. Provisioned infrastructure through HCP Terraform and integrated ECR, Secrets Manager, CloudWatch, IAM, and GitHub Actions OIDC for secure container deployments.

- **Gmail MCP** | github.com/TheTraile18/gmail-mcp: Developed a Go server for searching and reading Gmail messages and managing labels through OAuth, supporting local stdio and remote Streamable HTTP access for AI assistants and other MCP-compatible clients.
- **Grocery MCP** | github.com/TheTraile18/grocery-mcp: Developed an extensible TypeScript server for grocery store and product search, initially integrating Kroger APIs and designed to support additional retailers through a common MCP interface.

CERTIFICATIONS

- AWS Solutions Architect - Professional | AWS Developer - Associate | AWS SysOps Administrator - Associate | AWS Cloud Practitioner | AWS AI Practitioner | HashiCorp Terraform Associate | Microsoft Azure Fundamentals (AZ-900)

EDUCATION

Bachelor of Science in Mechatronics Engineering

2007 – 2011

Southern Polytechnic State University, Marietta, GA
